Company: Grosvenor Engineering Group

Location: Auckland

Category: architecture-and-engineering

GR Engineering Services Limited (GRES) specialises in providing high quality engineering design and construction services to the mining and mineral processing industries. Our services cover all aspects of a project life cycle from the initial evaluation and study phase through to design, constructions, commissioning and operational support. We are currently seeking

Mechanical Engineers

to join our growing team at our head office in Ascot, WA. You will have the opportunity to work both in the design office and on site dedicated to a project making real contributions. We are looking for motivated and proactive Mechanical Engineers with a desire to increase their technical knowledge and develop their long term career with GRES. With over 80 Engineers employed across all disciplines at our Ascot head office we have the in house experience to help you progress your career with GRES. Key Responsibilities of the role: Produce mechanical engineering deliverables such as data sheets, specifications and calculations Review mechanical drawings, layouts and 3D models in conjunction with the drafting teams Provide technical assistance to our in house construction teams, both from the design office and later based on site Assisting the commissioning team with site inspection reports during the dry, wet and ore commissioning phases Tendering, evaluating, awarding and managing vendor equipment packages including expediting and reviewing vendor documentation Working with civil / structural, electrical and process disciplines in the

project team to produce accurate design documents
Requirements: Bachelor's or Master's degree in Mechanical Engineering
3-6 years' experience in a similar role
Be available for full-time work
Be prepared to work in various locations in a FIFO capacity on a 3 and 1 roster as required for commissioning and construction
High level of written and verbal communication skills
Strong computer skills using Microsoft office suite
Australian

or

New Zealand

citizen, or have full working rights at the time of application- No sponsorship opportunities
Design experience with mineral processing plants
Experience with detailed mechanical calculations for conveyors, pumps and any other mineral processing systems
Site experience in construction and / or commissioning
What's on offer: With over 800 employees across Australia, our focus is to create a rewarding working environment where you will be valued and appreciated for your knowledge, experience and innovative mind.
Here at GRES, we offer: Competitive salary and remuneration packages
Opportunities to grow your career as the business grows
A collaborative and supportive team environment with all the tools to succeed
GRES is an equal opportunity employer and believes that diversity, equity and inclusion deepens our depth of knowledge, capability and experience.
We welcome applications from all backgrounds.
